ABOUT BRIGHTSHINE

YOUR FULL SERVICE BLIND COMPANY

Founded over 40 years ago Brightshine is your full service blind manufacturing and maintenance company.

Unlike many other companies that just sell blinds, we also clean and maintain them adding years to their life. In fact over the last 30 years this service has given us a depth of understanding of best practise manufacturing and also helps us recommend the best look for your home and your lifestyle.

All our blinds are New Zealand made and made to measure. When you buy from us you're buying direct from the manufacturer.

Our product range consists of 25mm Aluminium, Wooden Venetians, and Faux Wood Venetians as well as Sunfilter, Blockout and Sunscreen Roller Blinds. At the top of our range sits our Shutter product, Clearview or Centre Control, 89mm or 64mm louvers, sliding bi-folding or hinging these shutters will work for you.

We have a huge selection of colours and fabrics and our Wooden Blinds can also be colour matched to your walls or architraves, taking the guess work out of whether the colour is exactly right. Our Shutters are made from Basswood which is the most commonly used material for Shutters worldwide, we don't subscribe to putting MDF or other composite wood materials into people's homes.

They're not proven to be watertight beyond a certain period of time and we would prefer to work with a more trusted material such as wood.

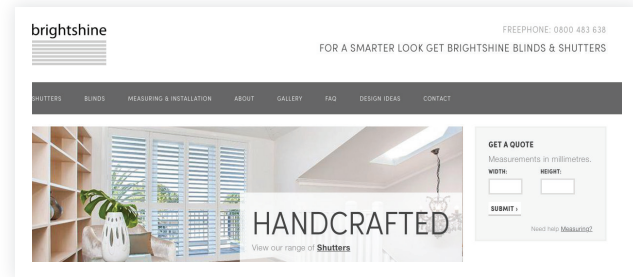

Our Roller Blinds come in a huge selection of colours and if you want a completely customised look we have a Kiwiana pattern range developed with Designworx (interior designers) or you can choose an image from Shutterstock, istockphoto that we will digitally print on to the blind. We can even put one of your favourite photos on a blind. All our roller blinds come with a choice of a regular pull system or you can motorise for an extra \$300 per motor (includes remote). These motors can be hardwired into your electrics or you can have battery operated ones for \$350 per motor (great for built or renovated houses).

The second part of our service is the cleaning and repairing. We only clean and repair Brightshine Blinds and they are picked up in the morning and delivered back to you in the afternoon.

We recognise that you have a busy lifestyle so you have a number of ways to engage our services:

- Visit us in our factory and showroom at 9 Malvern Rd, Onehunga
- Call us on 0800 483 638
- Visit our website at www.brightshine.co.nz where you can book a consultation or put in your measurements and get an online quote

So get in touch today, we think it will be worth your while.

"An excellent company to work with. Very professional and prompt with their service and guidance. I would strongly recommend doing business with them." - F. Tania (Auckland)

"What more can I say? Probably the best company I have dealt with, certainly the best deals and very professional. To anyone for future reference, this is a great company to deal with." - B. Walsh (Gisborne)

"Prompt delivery and blinds were just perfect. Friendly, helpful staff, a pleasure to deal with. Would highly recommend to other. Thank-you very much!" - S. Smith (Manukau City)

"Could you please pass on to the reps that fitted our Shutters that we love them. They are amazing and we are really happy with how they look. We'll definitely be back to buy more as we renovate the rest of the house. Thank-you again."
- J. Parson (St. Heliers)

SHUTTERS

CLASSIC, STYLISH AND CONTEMPORARY

The classic Plantation Shutters are a real show stopper and very much on trend at the moment. Beautiful craftsmanship and a stunning product, these Shutters really are top of the range. They are incredibly versatile and can be configured in so many different ways to make the most of the light and how you want to access the window behind the Shutter.

All our Shutters are custom made and finished with either paint or a stain. We have a large range of colours available and we can customise the finish to match your walls or architraves or indeed any contrasting colour for an extra \$250 for the order.

You have a lot of options in terms of centre or hidden controls, split café style or full shutters , You can bi-fold panels, slide them or hinge them left or right. Our consultants can guide you through all these decisions to get the best look and most practical solution for your home.

Our Shutters are made of Basswood which is an excellent hard wood and perfect for New Zealand conditions. It's a very dense yet light wood and is therefore durable and easy to manoeuvre. We can also manufacture these Shutters to suit any window shape so angles, doors and feature windows are not a problem.

Brightshine Shutters are imported and we've hand selected and visited the factory where they are produced. We have inspected their manufacturing processes and have quality control measures in place to ensure the best possible product. We offer a 3 year guarantee for our Shutters and believe them to be a truly outstanding product.

PAINTED WOODEN VENETIANS

WE CAN COLOUR MATCH TO SUIT YOUR INTERIOR

Painted Wooden Blinds are the highest quality Blind product on the market. We use Poplar as the wood of choice as it is both stable and light to lift up and down. We offer Resene White and Alabaster as standard colours and we can colour match for 15% more on your order. We hand spray our blinds here in our factory in Onehunga giving the wood time to absorb the finish to avoid chipping and lifting of the paint from the slats. The paint also seals the blinds making them great in wet areas such as kitchens or bathrooms and spot cleaning is also made simple by the finish with just a damp cloth.

Available in 46mm or 60mm blades, the Painted Wooden Blind is a great option for getting that Shutter look for less. They provide texture and classic style to a room whilst at the same time making it feel spacious and open. You'll be pleasantly surprised at the cost of these blinds too, we have begun manufacturing the actual slats at our factory and in doing this we have made more savings and passed these on to our customers. We're proud of our pricing so please do visit www.brightshine.co.nz and type in your measurements to see how reasonable our prices are.

STAINED WOODEN VENETIANS

FOR A NATURAL LOOK

Our stained Wooden Blinds are a beautiful natural looking product with depth and warmth in the stains. Each stain has been customised for Brightshine and has been specifically developed to bring out the natural grain of the wood in way that makes the finish as rich and as natural as possible. Our most popular light stain is Autumn Amber, perfect with Rimu interiors, Winter Glow is our most popular mid stain suited to Kauri or Oak finishes and Walnut is our favourite dark stain which is our contrasting look (as pictured).

Available in 46mm and 60mm blades, this product is a beautiful natural looking option for your home. We use UV inhibitors in the stain to try to minimise fading (the product will still fade over time though). Please do go to our site to type in your measurements and gain an instant online quote.

FAUX WOOD VENETIAN BLINDS

GREAT LOOK, GREAT PRICE

Faux Wood gives you that stylish wooden venetian blind look using vinyl compounds, instead of the usual Canadian cedar. It's ideal for people wanting to place blinds in areas with a lot of moisture like kitchens, bathrooms and laundries. They also work very well in places that can be easily damaged by pets, children and teenagers.

Because it's Faux Wood, it is much heavier than the poplar alternative and is not as light to pull up and down. As a result, the components wear quicker. Faux Wood Blinds are priced accordingly.

These blinds will give you all the same practical benefits as the other Venetians in Our Range – giving your home that warm stylish look, while providing you with added privacy.

ALABASTER

ALUMINIUM VENETIAN BLINDS

A MODERN CLASSIC

Aluminium Venetian Blinds have been a favourite in New Zealand for a very long time. In the last few years, the blinds have become more streamlined and better looking and are now enjoying a renaissance in this country.

They're still a great way to give you that desired privacy or let in the right amount of light into your kitchen, office, bedroom, bathroom or living area. Plus they can help control the temperature by opening them in summer and closing them off in winter, keeping you and your room nice and warm.

The great thing about Aluminium Venetian Blinds is the quality and durability. And if cleaned and cared for, they will last a lifetime. The blinds come in either 25mm or 50mm width, depending on your preference.

ROLLER BLINDS

MINIMALIST, DURABLE AND STYLISH

Roller Blinds are a stylish and minimalist window solution that offer a lot of practical advantages as well as being aesthetically pleasing. They are non-intrusive as a window solution and they roll away to nothing at the top of the window/door frame so they're brilliant over ranch sliders or bi-folding doors. They don't gather dust, can be easily spot cleaned and we can motorise them for an additional \$300 per motor (or \$350 for battery operated) meaning we can eliminate the need for cords altogether.

Our fabrics have all been hand selected to provide texture and colours that suit NZ homes and style. We have used a lot of Resene/Dulux colour charts to ensure we match popular wall colours as well as providing contrasting colours that tonally match with the same popular paint colours.

We then decided to take the concept of textures a step further and we've launched a patterned range with interior designers at Designworx. We have a series of Cabbage Tree, ToiToi and Landmark Cityscape patterns that we can use to create a real feature in your room with the blinds. If none of these suit however, we also have the ability to digitally print a photo you've taken or an image you choose (from iStockphoto, Shutterstock or Getty etc.) on to your blind to completely customise your look and make your room unique.

We've profiled each of our fabric types on the following pages, so have a read and see which best suits your needs and call us on 0800 483 638 to get samples sent out or arrange a quote.

SUNFILTER ROLLER BLINDS

CLASSIC AND LUXURY FABRIC SELECTION

We have a stunning range of classic fabric colours from the neutral range of White, Beige, Taupe, Sandstone through to the contrasting Charcoal, Blue Meets Brown and Black to the more textured an interesting in Pewter, Fawn and the Cream, Beige and Grey Stripe range. Black/White and Coffee/White are our latest additions to the range and were chosen for their depth of texture and for being a bit different.

Sunfilters are durable and easy to clean. They don't collect dust and if anything gets spilt or flung at them some warm soapy water and a kitchen cloth will do the trick.

OUR TOP FIVE COLOURS

CHARCOAL

PRIVACY BLOCKOUTS

COMPLETE PROTECTION WITH STUNNING FABRICS

Privacy Blockouts are a solid piece of fabric with a PVC backing to keep out as much light as possible (you will still get some light that creeps in around the corners and at the top of the blind as they're for the most part fitted inside the window frame). Perfect for bedrooms and rooms you want to make private at night. Blockouts can go on a double roller system with a Sunfilter Blind so you get the best of both worlds with the Sunfilter down during the day protecting your furniture and floors and the Blockout down at night.

Each fabric has been hand selected to ensure they add warmth and texture to the room. Our fabrics are just that, fabric – not canvas or plastic. We've got the textured Pearl White and Pearl Moon as well as the recent additions of Cloud and Chalk Blockouts. We've also got the ever popular Steel Grey, Azure Grey, Latte and Charcoal. We have a mixture of white backings and same side colour backing so if you have any body corporate restrictions we can work with it.

OUR TOP FIVE COLOURS

CHARCOAL

STEEL GREY

LATTE

CREAMY

SUNSCREEN

COST EFFECTIVE AND STYLISH

Sunscreens, or Translucents as they're also known as are in-between a Sunfilter and a Blockout. The fabric used is a solid piece of fabric with no openness factor (like the Sunfilters) but also without the backing of a Blockout. The net effect of this is that the fabric will let the light filter through but not the Sun and you won't see through the fabric. The Sunscreen option is great if you want to cut the Sun's rays out completely but still want the light to come in. At night, with the lights on behind this fabric you will see the shadows of people moving around but you won't see any detail.

Sunscreens come in a choice of Cloud, Chalk, Latte, Bone, Vanilla and the more textured Pebble fabric.

HELPFUL HINTS

ADVICE FROM OUR INTERIORS EXPERTS

At Brightshine we work with a number of Interior Designers to ensure we stay up to date with the latest trends. We also work with Architects, Developers and Colour Consultants to keep our fingers on the pulse. We can provide various levels of advice and guidance when it comes to choosing the right window solution for you and your home. Here are a few helpful hints to consider when choosing the right option for you:

What is the style and period of the home and is everything in the house modern or classical?

Window treatments need to reflect and work in with what you're doing with the overall look and feel of the house. You can make a feature out of your windows and doors by providing texture with Venetians or you can make them disappear into the walls by using the more minimalist Roller Blind option. A lot of our clients go with combinations of both Venetians and Roller Blinds. Venetians are used for all the windows and Roller Blinds go over the ranch sliders (as they roll up to nothing and don't create a stack at the top of the door).

Are you looking for privacy or is it OK to have a relatively transparent solution at the window?

Do the neighbours look in? How close is the house to the road? How much privacy do you need the blinds to give you? We have all sorts of solutions for giving you privacy but still creating a

feeling of openness. Venetians are a great option for controlling the light and the amount of Sun that comes into the room. At night they're completely private too. Roller blinds can come on a double bracket system so you have the Sunfilter down during the day and the Blockout comes down at night – the best of both worlds!

In terms of colour, do you want to contrast the walls or match them?

When selecting a colour, this is the first question we ask. Other considerations are how spacious the room is i.e. do you need to create a light airy, feeling or is the room big enough to do that on its own (i.e. high ceilings and a rather large space). For smaller spaces we tend to recommend matching the or tonally only going slightly darker than the walls and for larger spaces you can easily carry off a darker more contrasting colour in the windows or doors. The less you make of features like the windows and doors the more flamboyant you can be with your furnishings.

CLEAN AND REPAIR SERVICE

WE RECOMMEND YOU HAVE YOUR BRIGHTSHINE BLINDS PROFESSIONALLY CLEANED AND SERVICED BY US ONCE A YEAR TO MAINTAIN THE GOOD LOOKS AND MAXIMISE THE LIFE OF THE BLINDS.

At Brightshine we only provide a cleaning and repair service for our own blinds. If you are slowly replacing your old blinds with our blinds then we will clean your house/lot but you must have at least one of our blinds.

We operate a same day cleaning service from Whangaparaoa to Pukekohe. We pick the blinds up between 7am and 9.30am and have them back to you that afternoon.

When we pick up your blinds for cleaning we'll check to see if your blinds need repairs. We'll discuss our prices with you and agree on what's done then take them away for restoring.

For this cleaning service we charge a \$50 call out fee and \$15 per blind for Aluminium Blinds and \$35 per blind for Cedar or Faux Wood Blinds. Repairs are priced on top of this and will be quoted when the Representative picks up the blinds in the morning.

Clean and maintain your blinds during the year

If you're able to, it's good to clean and look after your blinds in between professional cleans. It's particularly important in New Zealand with our harsh UV light and dampness, which can sometimes affect the surfaces that are constantly exposed to the conditions.

Cleaning tips:

Wooden Blinds and Shutters

It's a good idea to regularly feather dust both sides of the blinds. We can provide an excellent product called Sprayglow, which is perfect for cleaning and enhancing these particular blinds. It's also important to remember that your blinds should be open before they are raised.

Aluminium Venetian Blinds

Again, it's important that you regularly feather dust both sides of the blinds and make sure to open them before they're raised. It's also a good idea to spray the tilter with CRC once a year to avoid stiffening and squeaking.

Roller Blinds

Sponge the surface down with a damp cloth, using mild, soapy water. We've also found Mr Muscle Window Cleaner works well. Simply spray a small amount on to a cloth and gently wipe the blind down.

Faux Wood

During the year, the blinds should be cleaned with warm, soapy water or dishwasher detergent and then dried with a towel.

MEASURING FOR BLINDS

DIY AND SAVE 10%

FOLLOW THESE INSTRUCTIONS IF YOU WANT YOUR BLIND TO HANG INSIDE THE WINDOW

Three simple steps to an accurate measurement

Follow these instructions if you want your blind to hang inside.

1. Measure the width of the window from jamb to jamb in three places. Note down the shortest measurement - this is the one we'll use.
2. Measure the drop by taking the measurement from the top jamb to the bottom jamb (or window sill) in three places. Note down the shortest measurement.
3. Send us the measurements and we'll start manufacturing them right away!

Important note: You will NOT need to make adjustments to the width or length of your blind measurements. Let us do this!

FOLLOW THESE INSTRUCTIONS IF YOU WANT YOUR BLINDS TO HANG OUTSIDE THE WINDOW

Three simple steps to an accurate measurement

Follow these instructions if you want your blind to hang outside.

1. Measure the exact width of where you'd like your blind to be (architrave to architrave). Note down the measurement.
2. Measure the exact drop from the top of where you want your blind to be to the bottom. Note down the measurement.
3. Send us the measurements and we'll start manufacturing them right away!

Important note: You will NOT need to make adjustments to the width or length of your blind measurements. Let us do this!

BRIGHTSHINE ONLINE

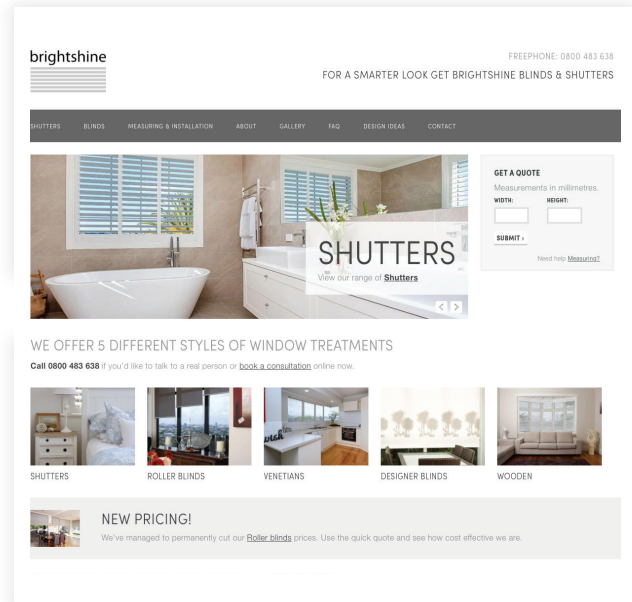

USING THE INTERNET TO MAKE YOUR LIFE EASIER

Brightshine's website contains a wealth of knowledge and it's not just a sales pitch. At www.brightshine.co.nz there are swatches available of all our products, measuring and installation instructions and quick forms you can fill in book a consultation or send us a cleaning request. We've also recently launched our QUICK QUOTE facility that allows you to put a measurement in and the site will return to you pricing across our whole range of products. Handy if you're trying to decide what type of window solution you're after.

The Brightshine Quote Tool

The Brightshine Quote Tool is a bit like an online shop. You will be guided through how to get accurate measurements for windows and doors, you can then choose the type of blind you want and the colour. Once you've submitted this information the quote tool will work out costs and give you an on the spot quote. You can submit an order for one blind or a whole house lot.

Once you've created the order you submit it to Brightshine and we'll contact you within 24 (working) hours. We'll send you samples in the post, confirm the price (we offer all sorts of discounts through our website) and then when you're happy with everything, manufacture your order.

Find out more about our great range at www.brightshine.co.nz

Blinds purchased this way will then be couriered straight to your door (or we can install, depending on what you've decided is the best option for you) and you're done. Now that's got to make your life easier!
